

Liquid Duocal

Description

An emulsion consisting of a blend of dried glucose syrup and refined vegetable oils.

Indications

Liquid Duocal can be recommended as a dietary supplement to provide a concentrated source of energy for the dietary management of conditions requiring extra calories from a combined carbohydrate and fat source.

Precautions

Must only be used under strict medical supervision. Not intended for use as the sole source of nutrition. Not for parenteral use. It is recommended that this product is diluted for children under five years and possibly for children under 12 years.

Preparation and administration

The dosage should be determined by a clinician or dietitian only, and is dependent on the age, body weight and medical condition of the patient. Shake well before use.

Liquid Duocal may be taken undiluted or diluted with water.

Storage

Once opened, keep in a refrigerator and use within 14 days.

Ingredients

Demineralised water, glucose syrup, corn oil, MCT oil, (fractionated coconut oil, fractionated palm kernel oil) emulsifier (E472c) preservative (E202) antioxidant (E307).
